## *TOTAL LOCKER SERVICE*

### ***About TOTAL LOCKER SERVICE***

Whatever your need for storage or changing room equipment – Total Locker Service has the answer. We supply and install a wide range of lockers, cubicles, bench seating and other storage solutions for all market sectors;

- Wet and dry spec lockers, cubicles and seating for any changing room environment
- Electronic LogicLock lockers, and RFID locker systems which integrate with facilities management control systems e.g. access control, cashless catering, e-registration, laptop / PDA control etc
- Wooden lockers and external grade lockers & cubicles
- Shelving, racking, and mobile shelving systems e.g. for libraries, office and industrial systems

We also supply spare parts, service and refurbishment throughout the UK and Ireland for all makes of lockers and cubicles. Our engineers have had years of experience resolving customers problems and our service centre staff are more than happy to assist with locks, keys, wrist bands and doors.

### ***Best Value for Our Customers***

- Our cost effective solutions score highly for best value and sustainability
- Our 20 years experience normally results in cost savings for customers
- Our service is personal, flexible and reliable, delivering projects on time and in full.

## THE SYSTEM RANGE FOR WET SPECIFICATION

*System 2000 - plant on doors*

*Good looks can be achieved within a budget....*

*without sacrificing strength and security.*

### FEATURES AND BENEFITS OF THE SYSTEM LOCKERS

- Frame and body assembly: unique extruded door frame uprights are formed from heavy gauge aluminium. The rounded profile allows easy bag deposit and removal.
- Doors manufactured from Solid Grade Laminate (SGL), which is moisture, impact and scratch resistant.
- Single piece curved body aluminium shell is hygienic and user-friendly with no sharp edges or dirt trap corners.
- Mouldings: high quality polypropylene top, shelf, and base have lattice structure for maximum strength and security, reducing break-ins through the shelf, & locker tops .
- Hinges: strong, heavy-duty, full-length hinge assembly built into locker frame provides a high level of security. Plastic shrouding maintains tidy appearance while automatic door closure reduces risk of injuries.
- Half-height unit available, ideal to meet DDA requirements.

*A good looking locker with high levels of strength and security, enduring design quality and long lasting materials for the wet environment.*

## THE SYSTEM RANGE FOR WET SPECIFICATION

### *System 2200 – inset doors*

*Very high levels of strength and security - the "inset" style doors are fitted into the high specification aluminium doorframe, also providing a visual contrast to the frame structure.*

### *DDA REQUIREMENTS*

*Half height lockers are available mounted at suitable height for easy access.*

*A wide variety of options are available for locking and recognition, including Braille numbering etc.*

**Total Locker Service is the preferred supplier of Helmsman Products**

## Storage Solutions for Changing Rooms

### ELECTRONIC SYSTEMS

#### LogicLock System 2200

LogicLock is a keyless, intelligent locking system ideal for busy leisure facilities – both wet and dry. Supremely simple to operate. LogicLock does not need keys or coins, can gather locker usage information and saves both time and money. LogicLock is available on System 2200 locker.

#### Benefits

- Significant cost savings over coin operated lockers.
- Less management time involved in running the system.
- Minimal locker maintenance and long life.
- Less mechanical parts to go wrong.
- The system saves on labour and consequently money.
- Minimal need for replacement parts and no replacement keys.

### THE DRY SIDE LAMINATE DOOR LOCKER

#### Ideal heavy duty locker

- Provides strength and security without the expense.
- Wide choice of locking options from coin locks to cam.
- Plant on solid grade laminate door supported by a concealed 90° sprung hinge to keep the door closed.
- Mild steel body, heavy gauge door frame.

#### ATTRACTIVE STRENGTH AND SECURITY

- Moisture resistant
- Impact resistant
- Environmentally friendly
- Scratch resistant
- Heat resistant

### **WHAT THEY SAID.....**

#### **Iain Abercrombie,**

*Head of Faculty Management, Business and Sport North Glasgow College said... 'Having gone through a process of tendering for contracts and planning installation in a new build, where specification and layout of the changing areas and lockers changed significantly over the course of a few weeks, North Glasgow College found Total Locker Service both flexible in terms of their reaction to changes and also in terms of keeping the costs to the tender price even with changes. The facility now benefits from a very professional, quality finish from a very professional, quality company.'*

**Chris Sandford,** Mobile Data Project Manager  
*Cleveland Police was pleased to comment "We needed a solution that would allow our officers the ability to charge their PDA devices in a secure environment. After looking at a number of solutions we decided on using the MiniMinder lockers. They have proved very effective in keeping the devices charged and therefore permanently online; exactly what was required."*

### **AND.....**

#### **Grant Donaldson**

*Health & Safety Officer, Lakes Leisure, Kendal said "We chose Total Locker Service as we were already in an income share deal with them. Total Locker Service was very helpful - they turned up on time on the appointed day and their guys worked efficiently to install the lockers and complete the job on time."*
