TOTAL LOCKER SERVICE

About TOTAL LOCKER SERVICE

Whatever your need for storage or changing room equipment – Total Locker Service has the answer. We supply and install a wide range of lockers, cubicles, bench seating and other storage solutions for all market sectors;

- Wet and dry spec lockers, cubicles and seating for any changing room environment
- Electronic LogicLock lockers, and RFID locker systems which integrate with facilities management control systems e.g. access control, cashless catering, e-registration, laptop / PDA control etc
- Wooden lockers and external grade lockers & cubicles
- Library shelving, racking, and mobile shelving systems e.g. for libraries, office and industrial systems

We also supply spare parts, service and refurbishment throughout the UK and Ireland for all makes of lockers and cubicles. Our engineers have had years of experience resolving customers problems and our service centre staff are more than happy to assist with locks, keys, wrist bands and doors.

Best Value for Our Customers

- Our cost effective solutions score highly for best value and sustainability
- Our 20 years experience normally results in cost savings for customers
- Our service is personal, flexible and reliable, delivering projects on time and in full.

TOTAL LOCKER SERVICE

SWIMMING AND SPORTS LOCKERS

System 2000: good looks can be achieved within a budget, without sacrificing strength and security.

- Frame and body assembly: unique extruded door frame uprights are formed from heavy gauge aluminium. Rounded profile allows easy bag deposit and removal. Doors are SGL.
- Curved single piece body shell is hygienic and user-friendly with no sharp edges or dirt trap corners
- Mouldings: high quality polypropylene top, shelf, and base have lattice structure for maximum strength and security.
- Hinges: strong, heavy-duty, full-length hinge assembly built into locker frame provides a high level of security. Plastic shrouding maintains tidy appearance while automatic door closure reduces risk of injuries
- Half-height unit available, ideal to meet DDA requirements

System 2200 : Inset doors fitted in to a high specification aluminium doorframe giving a very high level of strength and security.

AND FOR THE EXTERNAL ENVIRONMENT

Wet spec and weather resistant PLASTIC lockers

- Robust, hygienic and highly vandal resistant
- Hinges have been tested to 7 times FIRA industry standard. No fear of rust and can be cleaned with a high pressure hose
- Three sizes (450, 600, 900mm high)
- Base size 320mm x 460mm
- Tough polyethylene
- Very strong hinge that can withstand 3200N before breaking
- Label position and air vents on all door sizes
- Retro fit sloping top

WHAT THEY SAID.....

Iain Abercrombie,

***Head of Faculty Management, Business and Sport
North Glasgow College said...***

“Having gone through a process of tendering for contracts and planning installation in a new build, where specification and layout of the changing areas and lockers changed significantly over the course of a few weeks, North Glasgow College found Total Locker Service both flexible in terms of their reaction to changes and also in terms of keeping the costs to the tender price even with changes. The facility now benefits from a very professional, quality finish from a very professional, quality company.”

AND.....

**Grant Donaldson – Health & Safety Officer
Lakes Leisure, Kendal**

We chose Total Locker Service as we were already in an income share deal with them. Total Locker Service was very helpful - they turned up on time on the appointed day and their guys worked efficiently to install the lockers and complete the job on time. The installation looks great, the products are of excellent quality and our customers are really pleased.

Thanks
