

Locker hasp <16mm

ASSA locker hasp for doors up to 16mm thickness.

Application

ASSA locker hasps can be used in combination with padlocks for lockers, drawers, vending machines, etc.

Features

- ASSA OEM locker hasps 391350, 390785 and 390684 to be used on doors with thickness up to 16mm.
- Uses the same assortment of catches as Assa OEM cam locks.
- Uses the same 18/22 hole preparation as most cam locks.

Function

- The rotation of the catch is prevented by the padlock in locked position. When the padlock is removed the catch can be rotated 90° and the door can be opened.
- Available in right and left hand models.
- Recommended padlock: diameter of hasp 5-7mm and inner measure of hasp min. 19mm.
