

NO MORE LOST KEYS

For more challenging environments, the KL1200 includes all the benefits of the KL1000 but is tougher and more robust.

With additional programming features, stainless steel buttons, dual fixing points and increased battery life, the KL1200 provides enhanced benefits to facilities managers looking to simplify access control without the need for keys. Quick, tough and cost effective.

FEATURES

- 11 button keypad
- 8 digit Master and Sub-Master Code
- 4 digit User Code
- 6 digit Technician Code
- Two options available
- Private / Public Function
- Easy to fit and program

- Battery Override
- Auto Unlock
- Audible keypad
- Slam latch accessory available
- Vertical and right hand versions
- IP54 rated when fitted with gasket
- All parts / fixings / templates included
- Two year guarantee*

KL1200

KL1200

KL1200 has two functions:

Private Function

This is the default function and is already pre-programmed in new locks. This function is used where the same code will be repeatedly used, e.g. a pupil in a school or an employee with the same locker in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters a personal four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short-term, multiple occupancy applications, e.g. a locker in a sports club.

EASY INSTALLATION

*1 spare fixing bolt provided

*Codelocks and KitLocks electronic locks offer a two year guarantee and will be repaired, serviced or replaced free of charge if they develop a manufacturing fault. Faults caused by misuse, abuse and/or poor fitting are not covered by the guarantees.

KL1200 has four code levels available:

8 digit Master Code / 8 digit Sub-Master Code / 4 digit User Code / 6 digit Technician Code

The KitLock is supplied with two factory set codes:

Master Code
User Code
Before fitting change the Master and User Code.

Illumination for entry allowed/not allowed

Audible keypad

Steel casing

Swivel handle reveals # bar for programming

KL1200 can be supplied vertically or right hand horizontal.

For further product model options see price list.
