TOTAL LOCKER SERVICE

PL1130GGK | PL2160GGK | PL1230GBC | PL2260GBC | PL1430GBE | PL2460GBE

PHOENIX PL SERIES PERSONAL LOCKERS are the ideal solution for offices, warehouses, Gyms and Schools for the storage of clothes and personal belongings.

- **CONFIGURATION** – Available in Single, Double or quadruple door configurations.
- **SYSTEM** – Modular system allows for the lockers to be bolted together to form a block.
- **INTERNAL FITTINGS** – Single Door supplied with a fixed shelf, hanging rail and a coat hook. Double Door supplied with hanging rail and a coat hook. Full depth lockers able to accommodate coats and overalls on standard coat hangers in single and double door units.
- **LOCKING** – Standard Key lock, Mechanical 4 wheel combination lock or electronic lock with Private and Public function. For full details on locking options, see reverse of this leaflet.
- **CONSTRUCTION** – Fixed welded frame design, added to high quality fixings, make for an extremely sturdy durable locker. Doors can be fitted right or left hand opening.
- **SPECIAL FEATURES** – Each unit is ventilated with vents located in both the door and back wall.
- **ASSEMBLY** – Lockers are supplied as a flat pack with easy to assemble fixed frame design. Single unit can be built in less than 5 minutes.
- **COLOUR** – Finished in a high quality powder coated grey paint (RAL7035), with the option of striking red (RAL3000) or blue (RAL5015) doors, that add a splash of colour to your workspace/ Changing area.

PL1430 - PL2460

Private Function	Public Function
This function is used where the same code will be repeatedly used, e.g. an employee with their own locker in the workplace. Changing or resetting the code can be completed easily whilst the lock is still on the door, or if the code has been forgotten it can be retrieved using the master key (sold separately - combination only).	In this setting the lock operates with a single User Code. The user enters a personal four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for the next user. This function is used for short-term, multiple occupancy applications, e.g. a locker in a Gym/Sports club or work place that is used by multiple people.
